Index Guide

This index provides a detailed analysis of legislative debates in English or French as spoken by the participants. Translations are not provided in either language.

Entries are cross-referenced and arranged alphabetically into two sections, the Subject Index and the Speaker Index.

Subject Index. The main entry in this section is a subject heading which is followed by a list of members who spoke on the subject and page references. Subject headings that do not require speakers e.g. Divisions (recorded vote) are followed by subheadings and page numbers only. Typical entries in the subject index appear as follows:

Air Pollution. *See also* Automobile emissions
Agostino, 2191-2192
Divisions (recorded votes)
Concurrence in supply, 10865-10866

Speaker Index. The main entry in this section is a member's name and riding followed by a list of topics spoken on by that member and page references. Typical entries in the speaker index appear as follows:

Agostino, D (Hamilton East)
Air pollution, 2191-2192
Budget
 provincial, 1939
Food banks, 4785

French debates are grouped under the heading **French language debates/remarks** followed by subheading/s in French.

This index also provides **lists of bills** introduced during this session. Bills are listed alphabetically and numerically with a chronology of their stages of development.

Hansard issues and pages are numbered according to session. A list of issues, dates and page numbers for the first session of the 36th Parliament follows on page 2.

Further information may be obtained by contacting the Hansard Reporting Service index staff at 416-325-7410; 325-7411; 325-3708 or FAX 416-314-5870.

Notice à l'intention des usagers

Cet index est le fruit d'une analyse détaillée des débats en anglais et en français, dans la langue de l'intervention. Les interventions ne sont pas traduites.

Les vedettes sont arrangées avec leurs renvois par ordre alphabétique en deux sections : un index-matières et un index des intervenants.

Index-matières. Dans cette section, la vedette principale est une vedette-matière suivie d'une liste des députés qui sont intervenus sur ce sujet avec les numéros des pages. Les vedettes-matières qui ne nécessitent pas d'intervenants (les votes, par exemple) sont suivies de sous-vedettes avec les numéros des pages. Les vedettes dans l'index-matières se présentent de la façon suivante :

Air Pollution. *See also* Automobile emissions
Agostino, 2191-2192
Divisions (recorded votes)
Concurrence in supply, 10865-10866

Index des intervenants. Dans cette section, la vedette principale est le nom d'un ou d'une député(e) et de sa circonscription, suivi d'une liste des sujets abordés par ce ou cette député(e) avec le numéro des pages. Les vedettes dans cette section se présentent de la façon suivante:

Agostino, D (Hamilton East)
Air pollution, 2191-2192
Budget
 provincial, 1939
Food banks, 4785

Les interventions en français sont groupées sous la vedette-matière **French language debates / remarks**, suivie de sous-vedettes en français.

Cet index donne également **une liste des projets de loi** présentés pendant la session. Cette liste est présentée par ordre alphabétique et par ordre numérique avec une chronologie des étapes de leur avancement.

Les numéros et les pages du Journal des débats sont numérotés par session. La liste des numéros, des dates et des numéros de page pour la première session de la trente-sixième législature se trouve page 2.

				Ms Marilyn Churley (Riverdale): I have a petition signed by over 700 people within the Metro area and endorsed by Anna-Marie Goralczyk, who is here today in the gallery to hear me read this petition. It's addressed to the Legislative Assembly of Ontario and it asks people to sign the petition on child abuse and the CAS. It says:
				"Family courts should hear applications of 'Child in Need of Protection from the CAS.' CASs should report to police all abuses in foster care. The public should be informed to report child abuse to the police, who would be assisted by CAS in appropriate situations. CASs should be safe homes, answerable to the police and not investigating crime, avoiding abuse handling internally.
				"Parents shouldn't be denied equal evaluation of evidence or forced to communicate with CAS in ways that remove that equality, in case the CAS's mandate and protocols shift from the best interests of the child to themselves due to abuses in care.
				"The police should react when CASs obstruct justice, tamper with evidence, use coercion and be in control of the registrar of abuse. A safe home should be organized for children who've been abused in care, access and therapy prohibited to CAS. When short of police, enlargements should be made to youth bureaus instead of handing the investigations to CASs, to avoid CASs investigating themselves.
				"Official guardians (government child lawyers) should present evidence from the child only and not rely on submissions of the CAS. Children should be free to choose an

				attorney, and not forced counsel by official guardians against his/her will.
				“It should be illegal for CAS to threaten permanent separation because a parent doesn't want to sign for extended care when a period of two years results in the parent losing custody, regardless of the facts.... A group able to act should oversee that CASs don't put parents in humanly/legally impossible positions.
				“CASs shouldn't force instruction on child therapists. Family court judges shouldn't rely on therapy reports as mini-judgements and should consider evidence of persons other than the CAS network.
				“The police should recognize webs of victims in organizations that may tend to protect their own. A recent decision by the Supreme Court of Canada has favoured freedom of the press. General media and publication of names of dangerous persons should be practised, including CAS employees.
				“CASs should report statistics of abuse in foster care and percentages of charges/convictions.
				“The CAS should give clear, justifiable reasons in writing to parents for enforcing permanent family separation, silence/inaction not being an option.
				“CASs should assist families who suffer aftermath of sexual abuse, regardless if charges are laid.”
				Thank you, Mr Speaker, for this opportunity.

				The Chair: The issue at hand is that since one amendment has now carried which adds a subsection 24(4), the subsequent amendments are rendered out of order since there is now a subsection 24(4) in the bill. It has been a long-standing practice in this House that editorial re-numbering is done by legislative counsel under the authority of standing order 138(b), which reads as follows: “The office of the legislative counsel shall...revise, print and put marginal notes on all public and private bills and generally be responsible for the correctness of all such bills in their various stages.” This is the very situation that is contemplated by that standing order. I therefore find that the amendment is in order.
